## New Electronic Resources available at DUT Libraries

Dear Staff, Students and Researchers

We are excited to announce that the DUT Library now offers access to the following **new** electronic resources to support your teaching, learning and research needs:

**Knovel** is a multidisciplinary platform that covers all engineering departments of DUT. The content (e-books, case studies, conference papers, conference studies, etc.) is from over 170 publishers and engineering societies, which are continuously updated. The interactive features and the AI-enhanced smart search assist users in navigating technical information as experienced professionals. Seamless access to over 15,000 technical references and 65+ million material property data points.

[Access via this link](#)

**Engineering Village** is an engineering-focused information discovery platform that provides access to several specialized databases: Research & ideation, Design & Development, Continuous Innovation, and Competitive Analysis. It is primarily used for scholarly and technical research across all engineering disciplines.

[Access via this link](#)

**Access Emergency Medicine** is a digital resource designed to support emergency medicine professionals, students, and educators.

[Access via this link](#)

**Access APN Nursing (AccessAPN)** is an online education platform. It is customized for Advanced Practice Nurses (APNs), including Nurse Practitioners (NPs), Clinical Nurse Specialists (CNSs), Certified Nurse Midwives, Nurse Anesthetists, and Doctor of Nursing Practice (DNP) students.

These subscriptions fill critical information resource gaps for both Nursing and Emergency Medicine. The resources also have a wider application in all FHS programmes. Further, these resources are platform based, enabling close monitoring and reporting of student activity/ learning on the platform.

[Access via this link](#)

**Web of Science Research Assistant** is an AI-powered tool integrated into the Web of Science Core Collection by Clarivate. It combines generative AI and trusted citation data to help researchers streamline complex tasks like topic exploration, literature reviews, and journal selection.

[Access via this link](#)

**ScienceDirect ebooks collection** offers access to a wide range of multidisciplinary ebook content that has been procured to fill gaps in STEM information resources collection. Subject areas such as Agricultural, Biological, & Food Sciences, Chemical Engineering, Energy, Engineering, Environmental Sciences, and Materials Science are covered in this collection.

[Access via this link](#)

**Electronic and Electrical Engineers (IEEE) AI ebook collection** consolidates content from De Gruyter AI eBook library, Wiley AI eBook collection, Wiley Data & Cybersecurity eBook, Manning Publishers eBook library and PACKT eBook library. These resources will enhance our current subject collection, and provide critical resources for the teaching, learning and research project.

**Sustainable Development Goals (Taylor and Francis)** - This upgrade consolidates and expands our previous subscriptions with Taylor and Francis, and now we have full access to Sustainable Development Goals Online (SDGO) – your gateway to trusted research and resources on all 17 UN Sustainable Development Goals. This update includes 1,250 new chapters and 125 new journal articles.

Alternatively, these resources can be accessed via the library's [A-Z Databases](#) page, available on the DUT Library website <https://library.dut.ac.za>. For more information and support, visit your Faculty/Subject Librarians at your site library or connect with them online. Contact details are available here:
